

Exclusive Back Light Trespass Shield for Arieta™

Back Light Shield (BLS) option is designed to meet strict light trespass and LEED requirements. The shield is easily installed and is flush to the housing, so it adds no additional wind loading to the pole and is virtually unnoticeable.

Back Light Shield (BLS)

■ Type 2 Distribution ■ Type 2 Distribution with Back Light Shield

■ Type 3 Distribution ■ Type 3 Distribution with Back Light Shield

The Arieta Back Light Shield replaces the standard Arieta bottom plate cover. Simply remove the original bottom plate cover and replace it with the Back Light Shield utilizing the same 8 screws.
